Natasha Le Sourd | Penny Alexander | Ronald Gonzalez | Sally Whelan | Sandra Bouguerch | Sayo Ota
Stephanie Spindler | Stephanie Wilson

Exhibition dates: Friday 2nd February - Saturday 10th March 2018

Opening Night: Thursday 1 February 6pm-8pm

Fe/Male is an exhibition that explores the boundaries of gender in contemporary art. The exhibition aims to stimulate the mind and the senses to provide a provoking and compelling take on the theme of gender and sexuality, as well as playing with the politics and pleasures of visual culture.

The exhibition proposes to equalise the imbalance associated with gender from art history; where women would be subjected to the male gaze and where men would not be seen as objects of sexual desire. Situating itself within a post-modern framework, the exhibition presents an alternative reading where gender clichés are merged and blurred and gender becomes something that is not so easily defined as Male or Female but something that is more fluid and non-binary.

Providing a vast array of alluring and immersive art forms, *Fe/Male* is an exhibition that reflects the cultural shifts between all genders and the affinity all sexes share, whilst providing a provocative commentary on the issues regarding gender roles in modern society; including stereotypes, politics and perversion.

Please be aware that some works in this exhibition are of a mature nature which viewers may find challenging.
